

NERAK

Nerak Wiese achieves Safecontractor status

Nerak Wiese, the Brecon-based manufacturer of conveyors for bulk materials and packaged goods, has been awarded Safecontractor accreditation for its commitment to achieving excellence in health and safety.

With the Safecontractor scheme involving a detailed vetting process to examine the applicant's health and safety procedures and track record for safe practice, the company is delighted that its customers, employees and subcontractors can all rest assured that Nerak Wiese is a competent and reliable supplier.

Commented John Oakley, Managing Director, "The award of Safecontractor status represents a key advantage in terms of our ability to attract new contracts, with our clear commitment to safety being viewed extremely positively by both existing and prospective customers."

With clients including John Lewis, Bisley Office Furniture and Swisslog, Nerak Wiese serves a range of industries including retail, manufacturing, logistics, food, minerals, chemicals, pharmaceuticals and waste/recycling. Key products include continuous bucket conveyors, pendulum conveyors, platform lifts, reciprocating hoists and paternosters.

About Nerak Wiese

Nerak Wiese is a UK-based engineering company that specialises in the design, development and installation of conveyor systems. Offering both modular systems and bespoke solutions, Nerak Wiese has the design expertise and engineering skills to solve diverse material handling problems. Strengthened by over 40 years' experience, the company's solutions and service benefit customers throughout Europe, the Middle East, Africa, Southeast Asia, India and Australasia
