Dustcheck shortlisted for another Company of the Year Award

Local industrial dust and air filtration system manufacturer Dustcheck Limited have been shortlisted for another prestigious business award.

The 38 year old business who have already won the 'Company of the Year' category at the Solids Handling Industry Awards, held in April, have now been announced as a finalist in the 'Small Business of the Year' category (Sponsored by the University of Wolverhampton) at the Staffordshire Chambers Business Awards 2016.

The awards saw hundreds of applications across 11 categories and with the Small Business of the Year Category alone attracting over 50 nominations Dustcheck are extremely proud to have made it into the final four.

"Dustcheck has a reputation for quality, innovation and customer service. We've seen a marked growth over the last four years and this has led to the expansion of our manufacturing facility and an investment in staff – all of which underpinned our awards application," said Nigel Hubbard, Managing Director of Dustcheck.

The awards ceremony organised by Staffordshire Chambers of Commerce is taking place at Staffordshire County Showground on Thursday 14th July 2016.
