# Product Overview

**envea™**
SWR engineering GmbH

| | | | |
|---|---|---|---|
| **Monitoring of solids for small solid/air ratios** | **Monitoring of solids up to 20 t/h** | **Measurement of bulk solids for high flow rates** | **Flow measurement for dense phase conveying** |
| PicoFlow | SolidFlow 2.0 | MaxxFlow HTC | DensFlow |
| **Flow monitoring on air slides** | **Measurement of velocity** | **Online moisture meter for solids** | **Continuous ambient air dust monitoring** |
| SlideControl | SpeedFlow | M-Sens 2 | AirSafe |
| **Broken bag detection** | **Monitoring in filter systems according to EN 15859** | **Dust measurement** | **Monitoring of dust emissions according to QAL1** |
| Dusty | Leak Alert | ProSens | QAL 991 |
| **Material flow monitor with blockage detector** | **Bulk flow detection** | **Microwave barrier** | **Radar sensor for continuous level measurement of solids** |
| FlowJam *Plus* | FlowJam A | ProGap | Nico 15/30 |
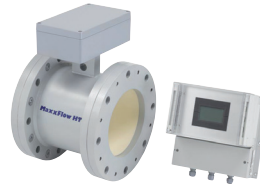

**SWR engineering Messtechnik GmbH**   PART OF THE ENVIRONNEMENT S.A GROUP
